About AUTM Foundation

The Foundation is charged with creating awareness, building relationships and securing financial support for initiatives and programs that benefit the Association and the profession.

Led by experts in science, technology, business and economic development, as well as intellectual property and licensing, the Foundation is a philanthropic agent and relationship builder. The Foundation's focus is to continually assess global needs in technology transfer and identify the strengths and opportunities within the AUTM community to help impact the profession.

Its unique position facilitates an exchange of ideas between AUTM and public/private entities to identify and fund initiatives that benefit the technology transfer community, further economic development and enhance the human condition.
